PROFESSIONAL SUMMARY

Detail-oriented and analytical professional with hands-on experience in payroll reporting, SQL-based data extraction, and workforce analytics at ADP. Proficient in writing SQL queries, validating data integrity, and delivering customized business reports to global stakeholders across payroll and HR domains. Adept at transforming raw payroll data into actionable insights, with a strong foundation in reporting tools, data troubleshooting, and client-facing communication. Seeking to leverage technical expertise in a Data Analyst, Reporting Analyst, MIS Analyst, HR Analytics, or Business Analyst role.

PROFESSIONAL EXPERIENCE

ADP Aug 2024 – Dec 2025
Technical Associate – Reporting Analyst (Payroll) Hyderabad, India

- Specialized in SQL, reporting tools, and payroll systems to assist clients with building, modifying, and automating custom reports, improving reporting efficiency and data accessibility
- Developed expertise in handling sensitive client data with a focus on data accuracy, data validation, and data integrity, ensuring compliance with payroll reporting standards
- Extracted and transformed data from ADP Data Cloud and payroll applications into structured custom reports using SQL queries, joins, subqueries, and data aggregation techniques
- Assisted global clients in accessing, interpreting, and utilizing workforce data and payroll reports, enabling stakeholders worldwide to derive insights and support business decisions quickly
- Utilized ADP reporting tools and Data Cloud support utilities to customize data views, apply filters, and format reports aligned with client KPIs and specifications, resolving data integrity and usability issues
- Enhanced troubleshooting capabilities by investigating and resolving report errors, data discrepancies, and system inconsistencies through root-cause analysis, demonstrating strong analytical thinking and attention to detail

St Francis College For Women Apr 2022 – Jun 2023
Core Committee Member Hyderabad, India

- Led a team of 6–7 students to plan and execute seminars, programs, and volunteer events
- Managed event budgeting and financial planning, including analysis, forecasting, reporting, and cash management
- Prepared and monitored budgets and forecasts to support data-driven decision-making
- Ensured accurate financial reporting and maintained liquidity through effective cash flow oversight

TECHNICAL SKILLS

Data Analytics: Data Extraction, Data Cleaning, Data Validation, Data Analysis, Trend Analysis, Workforce Analytics

SQL: SQL Queries, Joins, Subqueries, Filters, Data Aggregation, Report Automation

Business Intelligence: Power BI (Dashboards, KPI Reporting, Data Visualization), MIS Reporting

Microsoft Excel: Pivot Tables, XLOOKUP, VLOOKUP, Conditional Formatting, Data Cleaning, Charts

Payroll Systems: ADP Vantage, ADP Enterprise, ADP Workforce Now, Payroll Reporting, HR Data

Financial Reporting: Financial Statement Preparation & Analysis, General Ledger (GL) Reconciliation, Financial Data Reporting

Financial Risk Assessment: Financial Risk Analysis, Credit Risk Analysis, Liquidity Risk Analysis

Soft Skills: Analytical Thinking, Problem-solving, Stakeholder Communication, Attention to Detail, Leadership

PROJECTS

Payroll & Workforce Cost Analytics Dashboard | SQL + Power BI

- Built a payroll and workforce cost analytics dashboard using SQL and Power BI to track salary trends, payroll distribution, and departmental cost variances
- Extracted and transformed payroll datasets using SQL joins and subqueries, consolidating multi-source data for unified cost reporting and headcount analysis
- Created dynamic Power BI dashboards featuring month-on-month salary trend charts, cost-per-department breakdowns, and workforce cost KPI trackers
- Delivered actionable insights on payroll cost optimization, identifying overspend patterns and supporting budget forecasting discussions with stakeholders

Altman Z-Score Model | Financial Risk & Bankruptcy Analysis

- Applied the Altman Z-Score financial formula to predict bankruptcy risk by analyzing key financial ratios including profitability, leverage, liquidity, solvency, and activity metrics
- Assessed the financial health of Air India and SpiceJet Airways by evaluating working capital, retained earnings, EBIT, market value of equity, and total assets
- Performed structured financial data analysis and ratio interpretation to identify each airline's risk exposure and financial stability indicators
- Revealed insights into both airlines' financial positions, identifying strengths and highlighting potential risks relevant to credit risk analysis and investment decision-making
